

To add music (audio files) to your movie, you must first import them into a collection and then drag them to the Audio or Music track. You will find the Collection pane under **File** on the Menu bar.

Step-by-Step Directions

Adding audio from a CD

1. Place the audio CD into your CD or DVD drive.
2. Click the **Audio** button to bring up the audio pane.
3. The CD title will show in the pull-down menu.
4. Locate the song you want to import into your movie.
5. Drag the song from the Audio pane to the desired position on the Timeline.
6. The CD audio is inserted in the Timeline.
